

Sr. No.	Website URL	Purpose of Website	Things liked in the website	Things disliked in the website	Overall evaluation of the website (Good/Bad)
1.	https://aniwatchtv.com.ro/	Anime streaming website providing anime titles, latest releases, recommendations, genres, and search functionality.	Search functionality is easily available. Content is divided into categories such as latest releases, recommendations, ongoing series, and popular series.	The website contains several categories and repeated contents into the sections.	Good
2.	https://railway.com/	Railway is a cloud platform used by developers to deploy, host, monitor, and manage applications and databases.	Important project and deployment information can be organized in one place.	The interface can be difficult for beginners because it contains many technical terms and options.	Good
3.	https://www.mongodb.com/	MongoDB Atlas account login and cloud database management platform.	Simple login-focused interface. Authentication is straightforward. Supports account management and secure authentication features.	It contains Authentication problems while I accessing the platform via login with Github.	Good
4.	https://skribbl.io/	Online multiplayer drawing and guessing game where players draw words and other players guess them to earn points.	Very simple and easy-to-understand homepage. Create Private Room options are immediately visible.	The homepage has limited visual content. Some sections look somewhat old-fashioned.	Good
5.	https://vjti.ac.in/	Official website of Veermata Jijabai Technological Institute (VJTI), providing information about VJTI collage.	Navigation contains sections that are easily seen by user. Important announcements are displayed prominently.	Some sections appear repetitive, and the homepage can feel crowded because of many banners, announcements, and images.	Good
6.	https://start.spring.io/	Helps users create a new Spring Boot project by selecting project options and dependencies.	Very simple layout, options are easy to understand, no unnecessary content.	Looks plain and has very little visuals.	Good

7.	https://www.typingtest.com/	Used to practice typing and improve typing speed and accuracy	Simple design, typing practice starts easily, speed and accuracy are clearly shown.	The page contains advertisements and the design looks slightly outdated.	Good
8.	https://www.npmjs.com/	Used to find, share and manage JavaScript packages and libraries.	Large collection of packages, useful search option, package information is well organized.	Some pages contain a lot of information that make me confused.	Good
9.	https://www.remove.bg/	Used to automatically remove backgrounds from images.	Very simple interface, clear purpose, easy to upload an image and quick results.	Some advanced features require payment and free downloads have limitations.	Good
10.	https://starmavendigital.com	Digital marketing and online services website for businesses.	Simple layout, clear information about services, professional appearance and easy navigation.	website could have more interactive content.	Good
